Papers to Appear in Forthcoming Issues. . . . . 387

Author Index. . . . . 388

Subject Index. . . . . 390

## CONTEMPORARY EDUCATIONAL PSYCHOLOGY

### INFORMATION FOR AUTHORS

*Contemporary Educational Psychology* publishes articles dealing with empirical research nd theory in psychology as related to the educational process. Since the process of educa- on is a lifelong one, materials reflect the several life phases from neonatal to senescence nd death. However, these stages are reflected in an educational framework, and articles nd reviews must show a clear relationship to topic, data, and theory.

Specifically, the Journal contains articles that demonstrate the application of psychological ıethods and skills to the educational process. Both classroom and laboratory experimenta- on are relevant, particularly as they emphasize problem-solving. Instructional techniques ıay be reported, if adequate controls are used to demonstrate the validity of the findings. 'heoretical contributions may include issues, comparisons, analyses, and the like as appro- riate content.

A research critique of a selected educational topic and conclusions about implications or the field will be included as space permits. For instance, the topics selected for critique ill reflect extensive research over a period of several years, so that consistency in findings nd applications in the practical state may be explored.

The content of *Contemporary Educational Psychology* allows the identification of educa- onal problems, both in and out of school, and relates the content of each issue to these roblems.

Manuscripts for consideration should be submitted in triplicate to the Editor, Allen J. dwards, *Contemporary Educational Psychology,* Department of Psychology, Southwest Missouri State University, Springfield, Missouri 65802.

Original papers only will be considered. Manuscripts are accepted for review with he understanding that the same work has not been and will not be published nor is presently ubmitted elsewhere, and that all persons listed as authors have given their approval or the submission of the paper; further, that any person cited as a source of personal ommunications has approved such citation. Written authorization may be required at the ditor's discretion. Articles and any other material published in *Contemporary Educational sychology* represent the opinions of the author(s) and should not be construed to reflect he opinions of the Editor(s) and the Publisher.

Authors submitting a manuscript do so on the understanding that if it is accepted for ublication, copyright in the article, including the right to reproduce the article in all forms nd media, shall be assigned exclusively to the Publisher. The Publisher will not refuse any easonable request by the author for permission to reproduce any of his or her contributions o the journal.

*Form of Manuscript.* Accepted manuscripts should be prepared on high quality bond aper with wide margins, using double spacing throughout. Three copies should be sub- itted; each copy must include all figures and tables. Each page of the manuscript should e numbered. The first page contains the article title, author's name, affiliation and address o which correspondence should be sent. Authors should not place their names on the manu- cript itself. The second page should contain an abstract of not more than 150 words.

Authors are requested to follow the instructions given by the American Psychological ssociation *Publication Manual* (1974).

*Abbreviations and Symbols.* Do not use final periods with units of measure that are bbreviated (cm, sec, kg, etc.) in text or in tables, except for "in." (inch). Underline letters hat represent mathematical symbols; these will be set in italic type. Unusual symbols hould be identified in pencil in the margin the first time they appear.

*Figures and Tables.* All illustrations are to be considered as figures, and each graph or rawing should be numbered in sequence with Arabic numerals. Each figure should have a escriptive legend, and these should be listed on a separate sheet of paper. Figures should be

planned to fit the proportions of the printed page (4½ × 6¾ in.), and care should be taken that lettering on the original is large enough to be legible after a reduction of 50–60%. The original artwork should accompany the manuscript for photographing.

Tables should be typed on separate pages, numbered consecutively with Arabic numerals in order of mention in the text and placed at the end of the manuscript. All tables should have descriptive headings, typed double-spaced, above the table. Footnotes in the text should be identified by superscript numbers and listed consecutively on a separate page.

*References.* Literature references in the text should be cited by the author's surname and the year of publication, e.g., Roe (1960); Roe *et al.* (1961); Roe and Jones (1963, p. 150) (for reference to a specific page). If a reference has more than two authors, the citation includes the surnames of all authors at the first mention, but later citations of the same reference includes only the surname of the first author and the abbreviation "et al." Suffixes a, b, etc., should be used following the date to distinguish two or more works by the same author(s) in the same year, e.g., (Roe, 1960a, 1960b). Literature citations in the bibliography should be arranged alphabetically according to the surname of the author. Journal titles should be written out in full rather than abbreviated. Please note the style of capitalization and punctuation for journal articles, books, and edited books in the following examples:

Betz, E. L. An investigation of job satisfactions as a moderator variable in predicting job success. *Journal of Vocational Behavior,* 1971, **1**, 105–122.

Tucker, I. *The psychology of adjustment.* New York: Academic Press, 1970.

Cautela, J. R., & Wisocki, R. A. The use of male and female therapists in the treatment of homosexual behavior. In R. D. Rubin & C. M. Franks (Eds.), *Advances in behavior therapy.* New York: Academic Press, 1968. Pp. 165–174.

*Proofs and Reprints.* Galleys proofs will be sent to the author with reprint order forms. Authors will be charged for alterations in excess of 10% of the cost of composition. Authors may order reprints using the order forms provided.
